Bron Suchecki 48 minutes

GID Lecture 5: The ABC of Investment in Bullion at BMG

Nathan Narusis 35 minutes

The inaugural session of the Gold Standard Institute was held in Canberra, Australia in November 2009. The topic was "The Vanishing Gold Basis and the World Financial Crisis". Gold Investment Day featured speakers from the gold mining industry and the gold investment sector. The seminar featured Professor Antal E. Fekete and other invited speakers who shared their knowledge, experience and opinions regarding the unfolding financial crisis with those who attended. Professor Fekete, as always, presented his ideas in a stimulating and understandable manner and the lively discussions and question and answer periods added to the event. The other speakers offered expertise and ideas that supplemented the Professor's thinking with a rich mixture of theory and practice. New thinking on Gold Basis was presented at this event that was not available before. These DVDs contain the entire event including Q & A to allow you to come as close to being there as is possible.
